

Student Grant Program – 2023 Request for Proposals
Research Grant
Implementation Grant
Application Deadline: March 13, 2023

The [Society for Ecological Restoration Midwest-Great Lakes Chapter](#) (SER MWGL) has served Ohio, Indiana, Michigan, Illinois, Wisconsin, Minnesota, and Iowa since 2008. Our mission is to promote the science and practice of ecological restoration to assist with the recovery and management of degraded ecosystems throughout the Midwestern and Great Lakes region of the United States.

The Student Grant Program offers 2 awards:

The Chapter will award two grants (one Research, one Implementation) of up to \$4,000 *each*.

- **Research Grant** – supports student involvement in research in ecological restoration. This grant will be awarded to an eligible student for salary/pay, research supplies, field-related travel, equipment, and other expenses.
- **Implementation Grant** – supports student involvement in the implementation or management of an ecological restoration project. This grant will be awarded to an eligible student, student group, or student-oriented group for salary/pay, supplies, field-related travel, equipment, outreach materials, and other items to support implementation of restoration practices.

Grant funds cannot be used for travel to the SER MWGL annual meeting. The award winners will be announced at the chapter annual meeting and on the [chapter blog](#), and the recipients will be expected to present an oral or poster presentation on their work at the 2024 Annual Chapter Meeting. Award winners will receive waived annual meeting registration (limit 1 per award) for the 2024 Annual Chapter Meeting.

Application:

- **Eligibility** – The grants are open to all undergraduate and graduate students who are members of the SER Midwest-Great Lakes Chapter* and attend institutions of higher education within the regional boundaries of the SER MWGL Chapter. The proposed work must occur within the SER MWGL Chapter regional boundaries.
- Applicants should clearly state the grant award type (Research or Implementation) for which they are applying.
- **Proposal** (3 pages) – Proposals should not exceed 3 pages (font no smaller than 11pt with 1-inch margins), including all text, figures, and literature cited. Proposals must clearly describe how the funds will be used, the need for the funds, and how the proposed activities support the Chapter’s mission. Proposals should include the following:
 - **Research Grant**
 - *Introduction* – Provide scientific justification and significance of the research and specify research questions, objectives, or hypotheses.

- *Methods* – Detail the experimental design, site location(s), data collection methods, and statistical analysis.
 - *Anticipated Results & Discussion* – Explain anticipated results and potential interpretation, and address how the results can be applied to further our understanding of the science and practice of ecological restoration.
 - *Literature Cited* – Follow the [format of Restoration Ecology](#).
 - Implementation Grant
 - *Introduction* – Provide an overview of the restoration project and the specific objectives for how the planned activities will be implemented with the requested funds. This section should also describe the goals, history, composition, and past activities of the associated student group, if applicable.
 - *Planned Activities* – Describe the planned activities and restoration practices that will be implemented with the requested funds.
 - *Anticipated Benefits* – Explain anticipated benefits and how the planned activities will contribute to furthering our understanding of the practice of ecological restoration.
 - *Literature Cited (if needed)* – Follow the [format of Restoration Ecology](#).
- **Budget & Justification** (1 page) – A complete, detailed list of salary, supplies, estimated travel, and other costs for the project. Include a statement indicating any secured or anticipated pending funding for the project. SER MWGL Chapter will award up to \$4,000 for a Research Grant and up to \$4,000 for an Implementation Grant. (The budget request should not include funds to cover registration or travel expenses to the SER MWGL annual meeting.)
- **Letter of Support** (not more than 2 pages)
 - Research Grant - A letter from an advisor highlighting the student’s academic ability and accomplishments, the significance of the student’s research, and the student’s ability to complete the proposed project.
 - Implementation Grant - A letter from an advisor, mentor, community member, or other supporting partner highlighting the student’s or group’s accomplishments, available resources, and ability to complete the proposed project.

Submissions

- All application materials should be emailed as doc, docx, or pdf files to: mwgl.ser@gmail.com
- Use the subject line “Student Research Application” for Research Grants
- Use the subject line “Student Implementation Application” for Implementation Grants
- Applicants should include in the body of the email:
 - their full name, institutional mailing address, email address and phone number;
 - the expiration date for their SER Midwest-Great Lakes Chapter membership.

Application Deadline: March 13, 2023

For questions about eligibility or required application materials, email mwgl.ser@gmail.com.

Award winners will be notified by email on or before April 14 and announced on the [SER MWGL Chapter blog](#).

* The SER Emerging Professionals membership (\$39; formerly called Student membership) includes membership in both SER and SER MWGL chapter (MWGL must be selected as the regional chapter when joining). Associated benefits include the discounted registration prices at Annual Chapter Meetings and SER World Conferences, SER bi-monthly newsletter, discounts on publications, and more. For additional information on membership see <https://www.ser.org/page/IndividualMembership>.
