June Restoration Pub Talk

**Advanced Planning and Measurable Outcomes:
Restoration Success in Southern Colorado**

=====

David Chenoweth, Western States Reclamation Inc.

19 June 2019, 6 - 8 PM

David Chenoweth, President of Western States Reclamation Inc., will discuss a high stakes restoration project in southern Colorado that was done in conjunction with Colorado Springs Utilities (CSU). The project achieved 90% pre-disturbance restoration on 344 acres of pipeline right-of-way in a 2-year timeframe using a 7-step model. This model supports restoration success by setting up proper planning, management, and monitoring. David will be discussing the project in detail along with the team's approach and challenges faced along the way.

WeldWerks Brewing Company, 508 8th Avenue, Greeley, CO 80631

Free admission and appetizers!

Food, fun, and ecological restoration

ABSTRACTS AND PROPOSALS DUE AUGUST 30, 2019

SER 2019: 8th World Conference on Ecological Restoration

The Society for Ecological Restoration is organizing the 8th World Conference on Ecological restoration. This time, the conference will be held in Cape Town, South Africa, 22-27 September, 2019.

WHERE SCIENCE, PRACTICE & POLICY MEET

SER2019 connects researchers, practitioners, policymakers, industry professionals, and students with backgrounds in natural and social sciences, environmental engineering, urban and regional planning, natural resource management, public policy, and more. Conference sessions will foster knowledge sharing and debate around big-picture issues and trends, as well as specific tools, techniques, challenges, and strategies for ecological restoration around the world.

Check out the official [conference web page](#) for registrations and all relevant info
