

Cross-Biome Connections: Ecological Restoration on a Diverse Continent
October 28 - November 1, 2024
Vancouver, Canada

CALL FOR CONTRIBUTED PRESENTATIONS

The Society for Ecological Restoration Northwest Chapter and the Society for Ecological Restoration Western Canada Chapter invite presenters for the SER 2024 North American Conference, *Cross-Biome Connections: Ecological Restoration on a Diverse Continent*. This conference will be held October 28 - November 1, 2024, at the Pan Pacific Hotel in Vancouver, BC. The SER North American 2024 conference will provide an interactive forum to learn and share about the science and practice of ecological restoration across ecosystems and disciplines to better connect a diverse and engaged restoration community.

We invite contributed presentations on topics that are of interest to a regional and wider continental audience of practitioners and scientists of ecological restoration and ecosystem management.

The conference is planned to include the following thematic topics:

- Theories, approaches, and practices in a transdisciplinary environment
- Restoration across biomes, ecosystems, and communities
- Landscape-scale restoration and connectivity
- Trait-based restoration and functional ecology
- Ecological resilience and restoration under global climate change
- Restoration for migratory species
- Tribal or Indigenous perspectives and practices in restoration
- Community engagement and education
- Monitoring and assessment of restoration success
- Restoration specific to a given biome or ecosystem, such as wetlands and other aquatic environments, forests, grasslands, sage-steppe, alpine, arctic and boreal

Presentations that address our conference themes are especially welcome, although other restoration topics relevant to North America are also encouraged. We encourage presentations that include scientific research or restoration case studies, or which encompass social, cultural, and economic aspects of ecological restoration and management.

Oral presenters should plan on speaking for 10-15 minutes and reserving 5 minutes to answer audience questions.

PROPOSAL FORMAT

All proposals should include:

- Title
- Principal presenter (name, affiliation, contact information including e-mail)

- Co-authors (name, affiliation, e-mail)
- Brief abstract (<250 words). Include background information, objectives, importance and interest to the ecological restoration community
- Preference for oral or poster presentation format

SUBMISSION

Please submit proposals via the web form at

<https://app.oxfordabstracts.com/stages/7075/submitter> before April 30, 2024.

NEXT STEPS

Submitters will be notified of abstract acceptance by May 31, 2024.

Oral presentations will be assigned to a topical or organized subject session or reassigned to a poster format depending on scheduling and/or space limitations. The Program Committee will attempt to avoid conflicts between sessions and will give organizers an opportunity to notify the committee of known scheduling conflicts.
